This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-27. (cancelled)

28. (new) A collapsible bar comprising support members and means for releasably latching work surface elements to the support members, wherein there is a selectable number of the support members, the number of support members being variable from two to any number, wherein a plurality of selectable and interchangeable work surface elements having different functions are provided, each selected said work surface element being removably engagable with the support members via the releasable latching means, so that, when assembled, the said selected work surface elements interconnect the support members, and wherein at least one of the work surface elements includes one of a recess and an aperture through the work surface element, the said recess being suitable for use as at least one of a multi-bottle holder and an ice-chest, and the aperture being suitable for at least one of receiving and supporting a waste container therein and receiving a waste chute leading to a waste container.

29. (new) A collapsible bar as claimed in claim 28, wherein the releasable latching means includes an elongate channel on each support member and two skirt portions on the

surface element, the skirt portions being receivable in the channels as a close fit.

30. (new) A collapsible bar as claimed in claim 29, wherein each channel is open-ended and wherein the releasable latching means also includes a latch element which can slidably receive the open-end edge of the channel.

31. (new) A collapsible bar as claimed in claim 30, wherein the latch element is formed on a free-edge of the skirt portion.

32. (new) A collapsible bar as claimed in claim 29, wherein each support member is in the form of a frame having, in use, front and back uprights and a plurality of horizontal cross-members interconnecting the front and back uprights.

33. (new) A collapsible bar as claimed in claim 28, wherein the surface element is removably positionable in a plurality of positions on the support members and is interchangeable with another surface element.

34. (new) A collapsible bar as claimed in claim 28, further comprising a bar-top element, which is supportable by the first and second support members, and means for releasably retaining the bar-top element on the first and second support members.

35. (new) A collapsible bar as claimed in claim 28, further comprising a screen wall for screening the front and sides of the in use bar from patrons.

36. (new) A collapsible bar as claimed in claim 35,
wherein the screen wall is hingeably jointed to enable folding.

37. (new) A collapsible bar as claimed in claim 35,
wherein the screen wall is freestanding.
